

AIDS RIDE FOR LIFE

SEPTEMBER 11TH 2021

JOIN OUR AMAZING VOLUNTEER CREW!

The AIDS Ride for life is a cycling fundraiser ride around Cayuga Lake and supports the **Southern Tier AIDS Program**. The ride offers multiple route options from 14-102 miles.

Along the route there are 7 pit stops each with food, hydration stations, volunteer support and medical assistants. We strive to make this event safe and fun for everyone involved and this year is no different! Covid safety will of course be of top priority and we will be following all CDC guidelines as they are on event day. This event is held entirely outdoors and we have a large range of volunteer positions available that we are looking to fill immediately!

AIDS Ride for Life Route Map:
